

PROFILE

I'm a results-driven AI Analyst and Data Scientist who designs intelligent systems that balance innovation with ethics, transforming raw data into trustworthy, actionable insights.

My expertise spans data cleaning, AI governance, and generative AI, combining technical precision with a strong commitment to regulatory compliance.

I leverage GitHub DevOps, Microsoft 365 Cloud, and AI governance frameworks to build solutions that are both powerful and principled.

Certified in AI Ethics, Data Privacy, and Machine Learning, I have led Governance, Risk, and Compliance (GRC) initiatives at Protexxa and developed AI tools that automate workflows and enhance data integrity.

I am passionate about advancing ethical AI and data systems that drive transparency, innovation, and measurable impact across organizations.

WORK EXPERIENCE

Protexxa (CynatGlobal) - AI Analyst / GRC Project Lead | Jan 2024 - Aug 2024

Led AI Governance and Code of Conduct initiatives integrating BDPA and GDPR compliance.

Developed AI risk management frameworks for data cleaning and data engineering domains.

Managed cross-functional teams and presented results to stakeholders and executivesANDREW NARINE RESUME 2025 (3)

Independent Developer - AI & Data Projects | 2023 - Present

Built AI-driven data cleaning apps (DataSnap & AlphaClassBot) under GitHub organization ANADelta.

Automated ETL workflows for financial and educational datasets.

Created documentation and compliance validation modules for public repositories.

CERTIFICATIONS & BADGES

DataSnap - AI-Powered ETL and Data Cleaning System

Built a Flask + Pandas platform for real-time anomaly detection and automated data transformation. Integrated Socket.IO for dynamic updates and compliance-ready validationANDREW NARINE RESUME 2025 (3)

AlphaClassBot - AI Scheduler and Assistant

Developed a Streamlit chatbot for class/exam scheduling and secure notifications with Gmail API integrationANDREW NARINE RESUME 2025 (3)

AI Governance Frameworks @ Protexxa

Co-developed AI compliance frameworks aligning BDPA, GDPR and ISO 42001 within GRC initiatives and led a 15-member team to deliver Code of Conduct projectsANDREW NARINE RESUME 2025 (3)

Barbados AI Fraud Detection Hackathon

Applied machine learning models to detect financial fraud and ranked among top competitors ANDREW NARINE RESUME 2025 (3)

PROJECTS & PORTFOLIO

DataSnap - AI-Powered ETL and Data Cleaning System

Built a Flask + Pandas platform for real-time anomaly detection and automated data transformation. Integrated Socket.IO for dynamic updates and compliance-ready validationANDREW NARINE RESUME 2025 (3)

AlphaClassBot - AI Scheduler and Assistant

Developed a Streamlit chatbot for class/exam scheduling and secure notifications with Gmail API integrationANDREW NARINE RESUME 2025 (3)

AI Governance Frameworks @ Protexxa

Co-developed AI compliance frameworks aligning BDPA, GDPR and ISO 42001 within GRC initiatives and led a 15-member team to deliver Code of Conduct projectsANDREW NARINE RESUME 2025 (3)

Barbados AI Fraud Detection Hackathon

Applied machine learning models to detect financial fraud and ranked among top competitors ANDREW NARINE RESUME 2025 (3)

EVENTS & WORKSHOPS

- Zindi Community Member (Barbados) - Active participant in challenges and hackathons.
- Barbados AI Fraud Detection Hackathon (2025) - Hands-on ML project for fraud detection.
- UC Davis Hands-on Data-Centric Visual AI (2024) - Dataset exploration & image quality analysis.
- Protexxa AI Governance Workshops (2024) - Designed and presented AI ethics frameworks.
- Zindi AI Events and GovTech Meetups (2024-2025) - Collaborative AI community engagement.

EDUCATION

- Microcredential, AI for Data Analysis - TMU Chang School (2024-2027)
- AI Analyst Certification - Cyber Nations Foundation (2024)
- Coursera Specializations: Data Protection & Privacy, Business Ethics Foundation, Regulatory Compliance
- Continuous Learning: DeepLearning.AI Generative AI, Lund University AI Ethics.

CORE TECHNICAL SKILLS

- Languages: Python, R, SQL
- Libraries & Frameworks: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch
- Tools & Platforms: VS Code, GitHub, Streamlit, Flask, MongoDB Atlas, Azure, Google Cloud
- Domains: Data Engineering, ETL Pipelines, AI Governance, Fraud Detection, Automation
- Soft Skills: Analytical Thinking, Leadership, Collaboration, Communication, Ethical AI Design

AWARDS & ACHIEVEMENTS

- Barbados AI Fraud Detection Hackathon - Top Competitor
- Applied advanced ML models for financial fraud prevention.
- Protexxa Code of Conduct Leadership Award - For excellence in AI Governance and team collaboration.
- TMU Curv Microcredential - AI for Data Analysis - Awarded Aug 2024
- Recognized for ethical application of generative AI tools in data analytics.
- Cyber Nations Foundation - AI Analyst Certification - Issued May 2024
- Validated expertise in Python, machine learning, and ethical AI systems.
- GitHub Recognition - Level 6 (23,600 XP) with 17 Badges and 3 Trophies
- (Pull Shark x2 · YOLO · Quickdraw)
